SENIOR MENTAL HEALTH COUNSELOR I/II

DEFINITION

To perform a variety of complex professional duties in the provision of outpatient and crisis mental health services to individuals and groups.

DISTINGUISHING CHARACTERISTICS

Senior Mental Health Counselor I: This is the professional entry level class in the Senior Mental Health Counselor Series. This class is distinguished from the Senior Mental Health Counselor II by the performance of the more routine tasks and duties assigned to positions within the series and by the lack of a required license. Since this class is typically used as a training class, employees may have only limited directly related work experience. As a training class, this class is limited to six years in assignment before the appropriate professional licensure is required (Article 1, Regulation 4996.18 of the Business and Professional Code of California).

Senior Mental Health Counselor II: This is the full professional journey level class within the Senior Mental Health Counselor Series. Employees within this class are distinguished from the Senior Mental Health Counselor I by the performance of the full range of duties as assigned, requiring attainment of a Licensed Clinical Social Worker or Marriage Family Therapist License. Incumbents must possess a significant level of specialized, technical expertise beyond that expected at the entry level. Positions at this level require highly specialized knowledge, skills, abilities and experience, and often exercise independent judgment in the performance of their duties. Positions in this class are flexibly staffed and are normally filled by advancement from the entry level, or when filled from the outside, have prior experience or required licensing. The Senior Mental Health Counselor series is distinguished from the Mental Health Counselor series in that the former provides technical-level group and individual case and social services referral work.

SUPERVISION RECEIVED AND EXERCISED

Senior Mental Health Counselor I: Receives general supervision from higher-level supervisory or management staff.

Senior Mental Health Counselor II: Receives general supervision from higher-level supervisory or management staff; may provide leadership and coordination of activities of lower-level staff as assigned.
