Re: Proposition 65 Notification

On March 24, 2016 the California Highway Patrol informed this office of a diesel fuel spill incident. The incident occurred on I-5 in the northbound lanes, approximately one half mile North of Co Rd 27. The incident involved a passenger vehicle hitting a tractor trailer which caused damage to one of the tractor trailers reserve diesel fuel tanks. Approximately 15-20 gallons of diesel fuel spilled onto lane 2 of I-5 and the eastside gravel shoulder. Clean up was performed by Ben’s Trucking & Equipment with oversight from Caltrans.

This information is being provided to comply with the reporting requirements of the California Health and Safety Code, Section 25180.7, Proposition 65.

Please contact Glenn County Environmental Health at 530-934-6102 with any questions on this incident.

Glenn County Board of Supervisors
526 W. Sycamore Street
Willows, CA 95988

Dear Board of Supervisors:

The enclosed report is submitted Pursuant to Health and Safety Code Section 25180.7 (Proposition 65). The report documents information regarding the illegal discharge (or threatened illegal discharge) of hazardous waste, which could cause substantial injury to the public health or safety. The report is submitted on behalf of all designated employees of the Department of the California Highway Patrol.

Sincerely,

B. A. CARPENTER, Lieutenant
Commander
Willows Area

Enclosure
HAZARDOUS MATERIALS INCIDENT REPORT

March 24, 2016

OES #16-1817

SEQUENCE OF EVENTS

On March 24, 2016, at approximately 1151 hours, Mr. Troy McGill was driving a truck tractor/semi-trailer combination northbound on Interstate 5 in dry conditions. Mr. McGill was driving in the N-2 lane at approximately 55 MPH when a black Toyota Scion collided into the left side of his trailer. The collision caused the trailer’s 30 gallon refrigeration unit fuel tank to rupture and spill diesel fuel onto the asphalt roadway. Mr. McGill immediately drove his vehicle onto the paved and unpaved right shoulder where the ruptured fuel tank continued to leak diesel fuel until completely empty. Mr. McGill had conducted an inspection of his vehicle shortly before the collision and estimated the tank contained 15-20 gallons of fuel prior to the collision. Approximately 13-19 gallons of diesel fuel was absorbed into the dirt on the shoulder. The remaining 1-2 gallons was spilled upon the paved right shoulder as Mr. McGill was stopping his vehicle.

ROAD CLOSURE INFORMATION

No lanes were closed as a result of this collision.

EVACUATION DETAILS

There were no evacuations.

ENVIRONMENTAL IMPACT

The impact caused approximately 15-20 gallons of diesel fuel to spill out of the damaged fuel tank. The spilled diesel was spread along the asphalt shoulder and dirt shoulder. A search was conducted in the area of the spill for any storm drains. None were located.

CLEAN-UP ACTIONS

Great West Casualty Insurance (Lessors Inc.’s insurance company), coordinated the clean-up of the scene with CALTRANS and Ben’s Truck & Equipment Inc.

Approximately 18 cubic yards of contaminated soil was removed for disposal. The scene was declared safe by Glenn County Department of Public Health Director Kevin Backus on March 29, 2016, at 1605 hours.
ACTIONS OF OTHER AGENCIES

Artois Fire Department initially responded to the collision. Artois Fire Department assisted with scene stabilization and patient care. No mitigation was performed as the fuel tank had completely emptied and stabilized prior to their arrival. Caltrans assisted with traffic control and coordinated the clean-up. The damaged truck tractor/semi-trailer was serviced at the scene by L&T Towing and driven from the scene.

Glenn County Department of Public Health was notified on the day of the spill and declined to respond. However, they responded to the scene after the cleanup was complete on March 29, 2016, and declared the scene safe at 1605 hours.

CHP PERSONNEL ON SCENE

Shannon McGrane  Sergeant  ID 13675
Matt Nelson  Officer  ID 18812
Corey Regnani  Officer  ID 15855
Rodney Pozzi  Officer  ID 17577
